3. Goals and objectives:

- To hold the first meeting of Hippokrates 2 project partners, with Seville's contribution of the Seminar on Juvenile Violence.
- Reunion of the Hippokrates 1 participants included in the European Program.
- Introduction of the new partners: Italy, Seville and Portugal.
- Information about the activities that will be carried out as part of Hippokrates 2 and the time frame for their realization.

4. Presentation of the Program

- Each participant is given a registration folder which includes personalized proof of participation, a schedule of the activities that will be carried out, and the program for the first seminar.
- A computerized version of the program is also available in Power Point format. This version presents an outline of all activities and their general and specific goals and objectives.
- Portugal agrees to participate in the Guide for Case Follow-Up.
- Italy agrees to host the Second Seminar scheduled for September.
- Estonia and England agree to contribute a comparative study of the preventative and/or intervention techniques that were presented the previous year by each participating country. These two partners will work together on this project.
- Notification is given of the date of the next meeting.

5. Commitments

Portugal commits to participating in the Didactic Guide on Case Study of Juvenile Violence, and June is set as the deadline for delivering cases to be included in the Guide.

6. Seminar

Over one hundred participants from the fields of health care, education and social services are in attendance.

Participation is accredited by means of an official diploma from the Alicante Provincial Government.

- Leisure Time:

A free time committee led by collaborators from the Psychiatric Day Patients' Unit of the *Virgen de la Macarena* University Hospital and Clinic, members of the Timoneda Association, and of the Family Services Unit took on the responsibility of providing participants with a map of Seville and information about sights worth seeing and activities of interest to visitors to the city. This effort made it possible for participants to take better advantage of the free time that was built into the schedule of activities.

On the evening of March 27, the Tourism Council sponsored a dinner for all project partners.

- Evaluation and possible improvements:

At the end of the Seminar, participants were asked to fill out a questionnaire designed by the project's external evaluator.

Report on Seminar I activities:

Thursday, March 27, 2003

The European partners are welcomed by the Spanish partners. Francisco Ortega Beviá, head of the Psychiatric Day Patients' Unit of the *Virgen de la Macarena* University Hospital and Clinic in Seville, offers partners a tour of the hospital and introduces the members of his team.

At 4:30 p.m. on Thursday, March 27, the seminar materials are distributed to participants. Materials include a written summary in both Spanish and English of the sessions the participants will be attending.
